The following is an examiner's statement of reasons for allowance: The prior art does not teach the claimed invention as a whole, including:

(e) forming a sidewall on a side surface of said gate electrode after accomplishing said step (d), wherein the etching applied to said first and second polysilicon films in said step (d) forms an etched side surface of said first polysilicon film recessed compared with that of said second polysilicon film, thereby leaving a notch on said side surface of said gate electrode, and said step (e) is preformed in such a manner that said notch is filled with said sidewall.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
